Sep 2018 – Jul 2023 | Italy
> 09/2018 - 06/2020: 2 years secondary education in technical fields
> 09/2020 - 07/2023: 3 years secondary specialised studies in IT (including 2 years in Telecommunications)

Professional Experience

Freelance Web Developer
Mar 2020 – Jan 2022

Skills: HTML,CSS,Javascript,Figma,Photoshop, jQuery,SEO,Responsive web design,PHP,MySQL

- Helped clients adjust their websites to the newer standards by researching the new trends in web design and incorporating new features where necessary;
- Fixed issues in the UIs of clients' websites by testing them across different media (16:9, 4:3, ultrawide, tablet, phone screens) and on devices with different levels of performance (including legacy) and finding solutions to any problem;
- Fixed backend issues for clients' websites by testing them across different hosting platforms in order to find the best fit;
- Converted designs created by clients in Photoshop or Figma to HTML and CSS;
- Implemented SEO best practices into clients' websites to ensure as much traffic as possible.

Projects

Portfolio, *HTML,CSS,Javascript,Responsive web design*
My portfolio with my most meaningful projects:https://cipriancorobca.github.io 🔗

Try it, *Vue,CSS,Responsive web design*
Simplistic PC building game.
